DUPONT™ DuPont™ ProShield®
Protective Clothing

Protecting you against non-hazardous light liquid splashes and dry particulates

ProShield® offers a range of comfortable, soft and breathable limited-use garments that protect against non-hazardous dry particles and light liquid splash applications typically found in industrial situations.

ProShield® provides the right protection for the specific hazards you face.

ProShield® 50 microporous film garments provide a barrier against a range of non-hazardous aerosols, light liquid splash and dry particles.

ProShield® 50 garments are light weight and the roomy design allows for greater comfort and mobility. Applications include: janitorial, sanitation, general industrial maintenance, asbestos abatement, and hazardous

ProShield® 10 garments make it easier than ever to provide workers with a comfortable, quality coverall for those dirty work assignments, while cutting costs for disposable garments. These spunbond meltblown spunbond (SMS) garments are soft, breathable, and lightweight, while providing protection against dirt, grime, and non-hazardous dry particles remediation.

Supera™ Fire-Resistant Apparel

Fire-Resistant Protection, All Day Comfort, All Day Safety

The Supera™ fire-resistant (FR) apparel is designed for maximum comfort and all-day wear with a two-layer Kermel®-viscose blend that is non-irritating and feels soft against the skin. Even better, the fabric's inherent FR properties won't diminish with laundering, allowing for easy refresh between uses. It's an excellent choice for construction, mining, utility work, and jobs that involve oil and gas. The apparel is both NFPA 70E compliant and CAT2; Ebt 16 cal/cm².

Lakeland Pyrolon Protective Clothing

DESIGNED TO PROTECT YOU.

Pyrolon® Plus 2 fabric comes with all the essential features, distinct advantages and assurances of protection that only quality design and materials can deliver. Specifically treated to be oil and water repellent, Pyrolon Plus 2 fabric is breathable, offering you cool, comfortable and disposable protection for your expensive Primary FR/ARC Rated Garments.

Pyrolon® CRFR fabric is the Chemical Resistant and Flame Resistant disposable option designed to protect your Primary FR and ARC Rated garments when chemical splash is a concern. Pyrolon CRFR fabric bars contaminating flammables like paint, oil and grease, hazardous liquids and contaminants, and dry particulates from penetrating to inner Primary Protective Garments, potentially saturating them with flammable substances.
