

TILLMAN®

1444 | Top Grain Oil Resistant Goatskin Drivers Glove

SPECIFICATION SHEET

Description

Tillman's 1444 premium Goatskin drivers gloves are protected with Tillman's Oil Resistant shield, a molecular additive that repels oil grease and liquids from penetrating the leather. Tillman's Oil Resistant coating causes oil and liquids to bead off the leather keeping hands protected, clean and dry.

Tillman's Oil Resistant shield is infused into the leather during the tanning process so the leather is thoroughly treated and will not wash off. As gloves and leather wear, Tillman's Oil Resistant shield is still protecting.
