**ATG MaxiDry® Zero™  
Thermal Insulated Gloves:  
Nitrile Coated**

The MaxiDry® Zero™ integrates the core values of the MaxiDry® brand to bring comfort and liquid repellence together and combine them with the THERMtech® technology platform, which offers thermal resistance up to -10°C/14°F inside the glove under high activity with a coating designed to remain flexible for temperatures up to -30°C / -22°F. MicroFoam nitrile coating is compatible with light oils and provides good grip and excellent abrasion-resistance. Complies with FDA food handling requirements, 21 CFR, Part 177. Sizes: S-2XL.

**MaxiFlex® Ultimate™  
AD-APT™ Gloves**

Designed and developed as a breathable glove, MaxiFlex® Ultimate™ has become the benchmark for precision handling in dry environments. Now the iconic MaxiFlex® gets even better thanks to the inclusion of the new technology, AD-APT™ from ATG®. How does it work? AD-APT™ technology is a proprietary system that releases microencapsulated, natural cooling agents on the inside palm area of the glove. 100% silicone free. Complies with FDA food handling requirements, 21 CFR, Part 177. ANSI CUT LEVEL: A1. Sizes: XS-2XL.

**SnowForce™ Polyester Softshell  
Thinsulate™ Lined Winter Driver Gloves**

The SnowForce™ rugged winter driver gloves will easily replace old leather drivers, ropers, or fitter gloves with increased style and comfort. Tough, synthetic polyurethane palms offer more dexterity and better performance than natural leather, especially in cold and wet conditions. (Synthetic fibers take far less time to dry than natural fibers, and don't become stiff after drying.) The gloves are incredibly lightweight and feature elastic backs for a comfortable, non-bulky, contoured fit. Fully Thinsulate™ lined for warmth up to -10° C / 14° F without bulk, and won't absorb liquids. A polyurethane palm liner that extends from the fingertips to the top edge of the cuff provides an impermeable barrier to wind and water. Sizes: M-2XL.

**Arctic Knit™ ComFortrel® Glove Liners, White**

Designed to fit neatly underneath your favorite pair of work gloves, these 13-gauge Arctic Knit ComFortrel® glove liners keep hands warm and dry in the workplace. Constructed with ComFortrel® fiber—a breathable engineered co-polymer known for its impressive moisture-wicking properties—these liners will repel dampness by pushing perspiration away from the skin to keep hands dry throughout your workday. ComFortrel® dries much faster than cotton or polyester liners and offers superb shape retention and shrink-resistance even after being laundered. Sizes: S-XL.

**SHOWA®  
707HVO Chemical Resistant  
Nitrile Gloves**

SHOWA's® revolutionary Eco Best Technology® (EBT), the 707HVO blends the best of disposable and chemical-resistant technology to deliver optimum fit, feel, and comfort while protecting against chemicals. Eco Best Technology® accelerates the biodegradation of these gloves in biologically active landfills. This nitrile glove fits like "second skin" and effectively protects against oils, hydrocarbons, grease, and abrasions. Meets FDA Standards for Food Contact. Nitrile is unsupported, unlined, and biodegradable. Features rolled cuff bisque finish on palm and fingers. Hand-specific form. 9 mil. thick (0.23mm). 12" long (305mm). 12 pairs/bag. Sizes: XS-2XL.

**SHOWA®  
708 Nitrile Glove**

The SHOWA® 708 is ideal for professionals working in the food industry. This 100% nitrile, liquid-proof glove has high chemical-resistance and a unique fish scale pattern that provides excellent grip in wet environments. 9 mil. thick for exceptional resistance to tearing and chemicals. 24 pairs/bag. Sizes: S-3XL.

## TINGLEY

### Workreation™ Icon LTE™ Pants

Tingley® Workreation™ Icon LTE™ Pants have a fly front with a center snap, elastic waistband with drawcord, and two pass-through pockets with snaps. There is one hook and loop take-up strap and one zipper opening located on each leg cuff. Loaded with premium features for multi-purpose applications. The lightweight, waterproof, breathable material is ideal for warmer climates.

### Workreation™ Icon LTE™ Jacket

The Tingley® Workreation™ Icon LTE™ Jacket features set-in sleeve construction with full cut shoulder and 180-degree sleeve-to-body angle. The jacket has a zippered storm fly front with snap closure and an attached hood-in-collar. Sleeve cuffs are elasticized with hook and loop take-up straps. The jacket has attachment tabs at each sleeve cuff and at the collar to accommodate optional zip-in liners, a headphone pass through configuration, and 8 pockets.

### Squids® 3193 Tape Measure Tethering Kit

The Squids® 3193 Tape Measure Tethering Kit includes a 3100F(x) Single Carabiner Tool Lanyard and a 3770 Tape Measure Trap. This kit allows you to tether one standard 2lb (0.9kg) tape measure. Approved to the ANSI/ISEA 121-2018 standard.

### SpillFix™ Granular Absorbent

SpillFix™ Granular is completely natural, producing no carcinogens or dust, and has more than four times the absorption power of clay granular. Made of 100% recycled material. Effective on hydrocarbons, water-based fluids, and most aggressive chemicals. Lightweight and easy to deploy.

### EVOTECH® Construction Harness

For the latest design features that improve user comfort, ease of use, durability, and user safety, choose the EVOTECH® Harness. The EVOTECH® Construction Harness has Nanosphere® coating on the webbing that repels grease, dirt, and moisture. Also includes an integral back pad and tool belt with dual-durometer padding for superior comfort in work positioning applications. Back and hip D-rings.

### WEARWELL ErgoDeck MAX Tile Matting

Gone are the days of having to choose between comfort and customization. This modular tile takes flexibility, performance, and safety to the max. The ErgoDeck Max has patented LockSafe technology which connects together, but can be taken apart and reconnected on demand. This revolutionary product utilizes a universal edging system for simple configuration and installation.

### MEGA Comfort MEGA Composite Toe PVC Overshoe

The MEGA Composite Toe Overshoe™ is designed for temporary protection where there is a risk of toe damage due to crushing or falling objects or where toe protection is required. The unique and effective tread design provides exceptional slip resistance on typical walking surfaces. Made with PVC for better fit around all footwear. The composite toe is 25% lighter than steel and meets and exceeds the impact and compression performance criteria of ASTM F2413-11.

**DIRECTSAFETY.**  
Safe Soundz™ Disposable Earplugs

Tested according to ANSI S3.19, the Direct Safety® Disposable Earplugs feature soft, slow-recovery foam for extreme comfort and outstanding noise reduction to protect your hearing. They are easy to roll down and insert, and they expand slowly for a low-pressure fit in virtually any size ear canal. They are available in corded and uncorded options and are conveniently packaged in individual polybags to keep each pair clean. Made in the USA.

**MOLDEX**  
Ideas that wear well.™

In the world of personal protective equipment, Moldex stands for innovative design, comfort, and value. Moldex products are created with the comfort and safety of the end-user in mind. Not only do Moldex products protect workers, they are comfortable, long-lasting, and resist daily wear and tear to cut waste and promote cost savings.

**FIRST AID ONLY**  
THE SMART CHOICE

**SmartCompliance General First Aid Cabinet: Medium, Metal, Includes Medications**

SmartCompliance cabinets make restocking quick and easy, with patented snap-in boxes. The unique cabinet design eliminates disorganized and missing supplies. Clearly labeled compartments create a cabinet that is easy-to-use and restock. With the expansion pocket, you can customize your cabinet to meet your specific needs. ezRefill boxes snap into place, simplifying restocking and keeping supplies organized. As supplies are used, SmartTab ezRefill reminder tabs notify you when it is time to reorder supplies and puts reorder information at your fingertips. Contents exceed the 2015 ANSI Class A requirements and are sufficient to treat 25 or more people.

**Master Lock.**  
S600 Series Group Lock Boxes

The S600 Group Lock Box is made of 430 grade stainless steel to withstand the toughest environments. The rugged construction offers enhanced design features, making the lock box stronger and easier to use. Features a clear, impact-resistant window, allowing participants to see that keys are secured inside the box during group lockout. Also includes a rewritable label. The stackable design facilitates storage and simplifies transporting multiple boxes.

**bolle**  
SAFETY

**ULTIM8 Safety Goggle: Black/Pink Frame, Clear Anti-Scratch/Anti-Fog Lens and Platinum® Coating**

The most advanced protection for extreme work environments offers maximum fog resistance through the PLATINUM® coating. Features TPR waterproof foam, PC/TPR pivoting temples, and a removable adjustable strap. Meets ANSI Z87.1 - 2010 and ANSI Z87.1 - 2015 Standards.

**bolle**  
SAFETY

**TRYON Safety Glasses: Black/Blue Frame, Clear Anti-Scratch/Anti-Fog Lens and Platinum® Coating**

A new brand signature, the TRYON model comes in 2 versions: ultra-wrap-around fit, sporty design, co-injected temples with FLEX 160° technology, adjustable non-slip bridge, and PLATINUM® coating. TRYON is the perfect combination of style, innovation, and absolute protection. Meets ANSI Z87.1 - 2010 and ANSI Z87.1 - 2015 Standards.
