

Safety Services

Creating Safer Work Environments™

CONNNEY

SAFETY

A DIVISION OF WESCO DISTRIBUTION, INC.

Conney Safety is committed to helping businesses protect their workers and the work they do.

Conney Safety has been in the business of protecting companies and workers for over 70 years. Unlike other suppliers, we not only provide products and consultative services; we offer a complete safety solution for companies looking to partner with an industry leader.

Our team of safety experts are professionally trained and led by Certified Safety Professionals (CSP) with over 100 years of combined safety experience. Our expertise and experience comes from working with countless customers across a variety of industries, including manufacturing, construction, food processing, oil and gas, and more. Our expert consultants will work closely with your company's leadership team to develop and implement tailored safety and training programs.

Our safety services are available as either project-based solutions to address one-time needs, or as an ongoing, affordable subscription-based solution to handle your compliance needs over the long term. Our affordably priced and customizable safety services provide you with peace of mind and the means to achieve and maintain compliance at only a fraction of the cost you'd incur by going it alone.

OUR GOAL

- Reduce worker injury and illness rates
- Recognize and remove hazards from your workplace
- Send every worker home safely each night

For more information on our services, contact our Certified Safety Professionals toll-free at **800-462-1947** or safety@conney.com.
