- 44852 2XL

OGRE™ Thermal-Lined Mechanics Gloves

Canvas Palm

The OGRE™ is ready for the roughest jobs in any village or town. Thermoplastic rubber on the knuckles, fingers, and back of the hand provide outstanding abrasion and impact resistance. The thumb crotch is reinforced with Kevlar® for added wear resistance. The palm is constructed of corded canvas. A micro-porous Hipora® insert produces excellent thermal protection. The spandex back and neoprene cuff are extremely flexible.

- 75073 Large
- 75074 XL
- 75075 2XL
- 75076 3XL

Armorskin High-Vis Heatlock-Lined Waterproof Mechanics Gloves

Armorskin Mechanics Gloves produce wear resistance that is equal to leather. The pre-curved design follows the natural curve of the hand. Gloves offer a high-vis yellow back, neoprene knuckles to absorb shock, a breathable knit back, and a hook-and-loop closure. Gloves are waterproof and feature a Heatlock lining for added warmth.

- 44860 Small
- 44861 Medium
- 44862 Large
- 44863 XL
- 44864 2XL
Clutch Gear® Anti-Impact Mechanics Gloves

These gloves protect hands only in the places where impact occurs, so they stay fully flexible. Rubber pads on the back of the hands protect against knocks, without creating stiffness. A waterproof liner between the outer and inner layers keeps hands dry, and a thick fleece lining keeps hands warm. The PVC SureGrip® palm patches provide excellent grip, and are cushioned for comfort. The entire length of the thumb crotch features a tough Kevlar® patch that extends the life of the glove in the highest-wear area. 2” neoprene cuffs allow for easy donning and extra cushioning at the wrist.

X10 Thinsulate®-Lined Knucklehead Gloves

These high-visibility gloves feature a synthetic leather palm and a Thinsulate® lining to provide a barrier from water, wind, and cold weather. The back of the fingers and hand are padded with thermoplastic rubber, for unmatched abrasion and impact resistance. To decrease the chances of a snag or pulling of the wrist closure, the Velcro closure has been replaced with an elastic wrist.

- 75590 Large
- 75591 XL
- 75592 2XL
- 75593 3XL

Deep Grip Winter® Mechanics Glove

Use the Deep Grip Winter® glove in hazardous cold weather work environments. The Skid-X™ Grip palm is double stitched with Kevlar® thread for durability and is oil resistant. Flexible TPR on the back of the glove adds impact protection that bends with the fingers, and offers protection from finger tips to wrist. Features MicroSable™ Liner to insulate the glove and also provide a waterproof layer to stay dry and warm.

Tow Grip 201 Winter® Mechanics Glove

The Tow Grip 201 Winter® is for the crucial gripping power with multiple textures and slick surfaces in cold weather. The oil-resistant, dual-layer Zip Grip palm features non-slip grip on top of a cotton palm for grip control that is reinforced with Kevlar® thread double stitching. Flexible TPR adds impact resistance for fingers down to the fingertips, thumb, knuckles, and metacarpals on top of form-fitting spandex. Features neoprene long cuff to cover the wrist. 3M™ Thinsulate™ and Hipora® liner keeps the wearer dry and warm.

High-Vis/Drivers Gloves

Grade B Grain Cowhide Drivers Gloves
Keystone Thumb, Fleece Lined

Leather drivers gloves offer protection from rough objects, sparks, and heat, and cushioning from blows in heavy-duty work environments. Cowhide is the most common type of leather glove. The advantages of Cowhide include comfort, durability, excellent abrasion resistance, and breathability. Grain Leather is the smooth external side of the hide. This type of leather provides durability and dexterity. Keystone thumb features a separate inset thumb with a double layer of leather for more protection, dexterity, and comfort. This winter glove features a keystone thumb, and Thinsulate® lining for added warmth.

FALL / WINTER FLYER  Thermal Lined Leather Palm Gloves

**Insulated Split Leather Palm Gloves**  
*Rubberized Safety Cuff, Thinsulate® Lined*

Split cowhide glove with lining for warmth in cold winter conditions or in freezers. Fully lined. Safety cuff.

10321  XL

**Select Shoulder Leather Palm Gloves**  
*2.5" Rubberized Safety Cuff, Joint Double Palm*

Cowhide gloves are a good value for most applications requiring tough abrasion resistance. Shoulder leather covers the palm, knuckles, thumb, index, and fingertips. Fabric backing breathes for comfort. Fleece-lined style with 2-1/2" rubberized safety cuff will keep hands warm in cold conditions.

10446  Large

**Honeywell® Polar™ Gloves**  
*Split Cowhide, Safety Cuff, Thinsulate® Lined*

When the conditions are crisp, your hands will be warm and dry inside these Thinsulate®-lined split cowhide leather gloves. For added protection from cold temperatures, a long knit wrist is sewn into the safety cuff to keep snow and ice from falling inside the glove. Gloves get their durability and long wear from a full leather index finger, knuckle strap, leather fingertips, and a leather pull patch. To ensure worker comfort, the gloves are designed in a wing thumb, gunn cut pattern.

11095  Large

**Split Cowhide Waterproof Gloves**  
*Rubberized Safety Cuff, Thinsulate® Lined*

These Thinsulate®-lined split cowhide leather gloves will keep your hands warm and dry, even in blizzard-like conditions. The waterproof lining and safety cuffs combine to keep ice and snow away from your hands. Gloves feature a full leather index finger, knuckle strap, and leather fingertips. To ensure worker comfort, the gloves are designed in a wing thumb, gunn cut pattern.

- 43022 Large
- 43023 XL
Ninja® Ice Gloves
Nylon, Fully PVC Coated

Ninja® Ice Gloves feature a dual shell consisting of a 7-gauge acrylic terry liner on the inside and a 15-gauge nylon liner on the outside. Gloves are made with a proprietary Hydropellent Technology™ PVC full coating that creates encapsulated air molecules which repel liquid. This process produces a firm wet or dry grip, plus it also provides a cushioning effect to minimize impact. The combined result is a thermal lining that stays soft and flexible in temperatures as low as -58°F.

Luminator™ Class 3 Bomber Jacket
Lime
This two-tone jacket offers a fleece-lined collar and cape back with D-ring access. The high-visibility lime fabric is accented with black fabric around the bottom torso and sleeves to hide dirt. This insulated garment also features a soft inner lining, outer radio pockets, two zipper front pockets, inner zipper storage pockets, a zipper front closure covered by snap storm fly, an elastic cuff with adjustable closure, and a roll-up hood with reflective stripe. 2" 3M™ reflective stripes circumnavigate the chest, torso, shoulders, and sleeves. Meets ANSI/ISEA 107-2004 Class 3 standard.

Outstanding Value!

Class 3 8-in-1 Bomber Jacket
Lime
This jacket can be worn in 8 different configurations and has pockets everywhere, making it the ultimate jacket for any workplace that requires high-visibility clothing. The outer shell is constructed of lightweight, water-resistant polyurethane-coated polyester, while the inner shell is constructed of polyester fleece. Both the inner liner and outer shell are high-visibility yellow with ANSI-certified striping. Both the inner liner and outer shell can be worn alone, or the sleeves can be removed to make a Class 2 vest. Both also offer a fleece collar. The concealed detachable hood works with both the shell and liner. Jacket features outside zipper pockets, an inside breast pocket, a cell phone pocket, a clear ID holder pocket, and a pen/pencil sleeve pocket.

N-Ferno® 6818 Winter Cap
This snug-fitting knit cap with soft fleece liner feels and looks great. Cap is made of a 100% dralon acrylic shell with 3M™ Thinsulate Flex insulation. 229272

Trex™ 6310 Adjustable Ice Traction Device:
This adjustable one-piece traction device for shoes or boots delivers tenacious grip and stability. The sole features ten rugged, heat-treated carbon steel studs. An aggressive tread connects the mid-foot and heel stud zones. The stretchable rubber stays flexible in temperatures as low as -40°F and allows for easy on/off. An adjustable cord cinches tight for a secure fit. 33440 Medium, Size 5-8 33441 Large, Size 8-11 33442 XL, Size 11-13

Trex™ 6315 Strap-On Heel Ice Traction Device
This corrosion-resistant steel heel plate provides tenacious grip and stability on ice and snow. The heel-only design leaves the mid-foot free for unobstructed vehicle operation. The channeled design will not retain ice, snow, or debris. Rugged webbing with a hook-and-loop strap provides a secure fit. 30549 Large, Size 5-11 30550 X-Large, Size 12-16

A18 Acrylic Watch Hat, Men’s
Iconic Carhartt A18 Watch Hat combines comfort with warmth for those cold weather days. Made of 100% acrylic, stretchable rib-knit fabric with the Carhartt label sewn on front. Available in a variety of colors and one size fits most. 16382 Black 16383 Bright Lime 18384 Bright Orange 18385 Brown

Personal Anti-Fatigue Mats™ Insoles
These dual-layered memory foam insoles are far more effective than the standard anti-fatigue floor mats at reducing muscle strain, improving balance reactions, and increasing blood circulation. Plus, these insoles not only reduce odors, but they’re also anti-fungal, anti-bacterial, and anti-perspiration. The heel cushion eliminates the shock impact of heel strike. Personal Anti-Fatigue Mats work well with all styles of industrial and extra-depth footwear. 75026 Women’s 5-7 75027 Men’s 6 - 7, Women’s 8 - 9 75028 Men’s 8 - 9, Women’s 10 - 11 75029 Men’s 10 - 11, Women’s 12 - 13 75030 Men’s 12 - 13 75031 Men’s 14 - 15

TINGLEY
Winter-Tuff™ Ice Traction Overshoes
Prevent slip-and-fall injuries when working on ice and snow. The 46 carbide-tipped studs in these overshoes dig into slippery surfaces to help keep you safe. The injection-molded, seamless construction produces 100% waterproof protection. This lightweight footwear stays flexible in cold temperatures for all-day comfort. Footwear also offers excellent stretch and tear resistance for more durability, comfort, and easy on/off. The abrasion-resistant sole allows for long wear.

76225 Small, Size 6.5-8
76226 Medium, Size 8-9.5
76227 Large, Size 9.5-11
76228 XL, Size 11-12.5
76229 2XL, Size 12.5-14
76230 3XL, Size 14-15.5

Winter-Tuff® Orion XT™ Ice Traction Overshoes
Prevent slip-and-fall injuries when working on ice and snow. The wide-opening gusset and multiple adjustment points lets the Orion XT slip over your work boots while the tungsten-carbide studded cleated outsole makes sure you maintain your grip on icy and snowy surfaces. 20" height, the waterproof, durable, polyurethane on 840 denier nylon upper is molded directly to a PU/TPU bottom. The lightweight, anti-fatigue design provides all day comfort and the heel counter stabilizer prevents side-to-side rolling. The reflective accents allows for 360º nighttime visibility. Features a 6" rollaway gaiter to extend coverage to 20" for deep snow.

13195 Small, Size 6.5-8
13196 Medium, Size 8-9.5
13197 Large, Size 9.5-11
13198 XL, Size 11-12.5
13199 2XL, Size 12.5-14

ICE BEAR™ Safety Toe & Plate Boot
The BAFFIN® ICE BEAR™ Safety Toe and Plate boot, specifically designed for the North American climate, has thermal polyurethane compounds to be cold crack resistant to -50°C/-58°F. Features an oil and acid resistant rubber outsole that provides superior traction at extreme cold temperatures. The boots also have a GelFlex polyurethane midsole that provides comfort and reduces fatigue. Designed with a wide fit calf and foot, light weight abrasion resistant polyurethane molded boot, and comfort crafted insole. Lug outsole design provides added traction on packed snow and icy conditions. Created with a metal free safety toe and plate. CSA / ASTM / CE approved. ESR / EH rated.

Premium Worker HVIS™ Work Boot: Black
The BAFFIN® Premium Worker HVIS™ work boot is constructed of waterproof leather with an oil and acid resistant rubber outsole. Designed for cold weather, the boots have Ice Paw slip resistant outsole inserts, a frost plate foot-bed finish and non-slip laces. Featuring B-Tek insulation throughout and polyurethane cushion mid-sole and safety cradle. Comfort crafted stability insole. Non-metallic boot with a safety toe and plate with approved ESR/EH protection. Coefficient of friction slip resistant rating of .84 at room temperature and .74 at -200C/-40F. 8" height design. CSA / ASTM / CE approved safety toe and plate protection with electric shock and electric hazard protection.

**Yaktrax Pro Ice Cleats**

Yaktrax have a unique, spikeless, patented coil design that will instantly give you better traction, confidence, and safety on packed snow or ice. Move about naturally with the same solid grip that you are accustomed to on dry surfaces. Made with high-strength, abrasion-resistant 1.4 mm steel coils and heavy-duty natural rubber material, the Yaktrax Pro easily conforms to the shape of your boot or shoe and stays on securely with the removable performance strap. The coil design provides 360° of traction on packed snow and ice and can be worn in temperatures as low as -41°F.

- 28718 Small, Size 5-8.5
- 28719 Medium, Size 9-11
- 28720 Large, Size 11.5-13.5
- 28721 X-Large, Size 14+

**Yaktrax Walker Ice Cleats**

Yaktrax have a unique, spikeless, patented coil design that will instantly give you better traction, confidence, and safety on packed snow or ice. Move about naturally with the same solid grip that you are accustomed to on dry surfaces. Made with high-strength, abrasion-resistant 1.2 mm steel coils and stretchable polyelastomer material, the Yaktrax Walker easily conforms to the shape of your boot or shoe. The coil design provides 360° of traction on packed snow and ice and can be worn in temperatures as low as -41°F.

- 28722 Small, Size 5-8.5
- 28723 Medium, Size 9-11
- 28724 Large, Size 11.5-13.5

**Diamond Grip™**

ICEtrekkers Diamond Grips™ provide aggressive traction for all winter walking conditions, from ice to back country snow and everything in between. They are also effective when transitioning through gravel, rock, and mud from icy surfaces. Made of case hardened steel alloy, and strung on steel aircraft cable, the patented Diamond Beads have hundreds of biting edges that grip in all directions. The hearty rubber slings are flexible in subzero temperatures and stay securely on the foot-wear, even in deep snow. They are easy to put on and take off, yet fit snugly and stay on without the need for additional straps. When wearing with regular boots, add one shoe size; for insulated boots, add two shoe sizes.

- 606824 Small, Size 5-6
- 606823 Medium, Size 6.5-9
- 606822 Large, Size 9.5-12.5
- 606825 X-Large, Size 13+

**Chains**

Think of ICEtrekkers Chains as tire chains for your feet, perfect for all snow conditions, including packed and crusty surfaces. The durable links are individually TIG welded and made from case hardened steel. The unique ladder pattern under the ball of the foot, combined with the triangular pattern on the heel, provides stable footing and is comfortable for extended wear. The hearty rubber slings are flexible in subzero temperatures and stay securely on the footwear, even in deep snow. They are easy to put on and take off, yet fit snugly and stay on without the need for additional straps. When wearing with regular boots, add one shoe size; for insulated boots, add two shoe sizes.

**Hog Heaven™ Anti-Fatigue Mat**

This 7/8” thick mat will put your feet in Hog Heaven™. Mats are static-dissipative for use in computer rooms and electrical part manufacturing areas, plus they also work well in welding areas. Nitrile rubber surface offers better chemical resistance and more slip resistance than vinyl-topped mats. The rubber border remains flexible and will not crack or curl.

- 11922 Black/Yellow, 3’ X 5’

**Waterhog™ Entrance Mats**

Classic Entrance Mats can hold up to 1 1⁄2 gallons of water per square yard, so water and dirt get trapped on your mat, not your floors. 100% premium polypropylene fiber system allows these mats to dry quickly, without fading and rotting. Tri-Grip™ cleated rubber backing minimizes the movement of the mat and improves traction. 1⁄2” thick mat can easily be vacuumed or hosed off. Rubber-reinforced face nubs prevent the pile from crushing, extending the life of the product. Classic Mats feature a rubber border.

Respirators for Dusty Conditions

The use of N-Series Respirators is typically limited only by hygiene, damage, and increased breathing resistance. However, when working in very dirty or dusty workplaces that may result in high filter loading (200 mg), service time should be limited to 8 hours of continuous or intermittent use, unless an evaluation is done to prove that extended use will not significantly degrade efficiency levels.

When choosing a respirator for dusty conditions, consider the following features:

- **3M™ Cool Flow™ Exhalation Valve** – A patented one-way valve for easy exhalation and cool, dry comfort.
- **Conformable Noseclip** – Standard (S) or M-Noseclip (M) adjusts easily for fewer pressure points.
- **Advanced Electret Media** – Advanced electrostatically-charged microfibers make breathing easier and cooler.
- **Three Panel** – Designed for comfort and convenience.

### Respirator Selection Process

Under NIOSH 42 CFR 84 there are nine classes of filters comprised of three levels of minimum filter efficiency and three categories of resistance to the effects of oil in the workplace.

The three different levels of filtration efficiency are 95%, 99%, and 99.97% (100) against the most difficult particle size to filter.

The three categories of resistance to the effects of oil are:

- **N** – Not resistant to oil
- **R** – Resistant to oil
- **P** – Oil proof

**67 Bump Cap: 4-Point Pinlock Suspension**

These polyethylene bump caps are ideal for protecting worker's heads from lacerations, minor bumps, and bruises in areas that do not require certified safety helmets. 4-point injection-molded pinlock suspension adjusts from head sizes 6-1/2 to 7-3/4. Bump caps are not designed to protect against impact from falling or glancing objects. Does not meet ANSI Z89.1 standard.

**Static Dissipative Class 2 Mesh Vest: Lime**

In environments where natural gas transmission, exploration, drilling, and transportation exist, there is always notable concern for static build-up. These environments are where a carbon fiber blended fabric is essential. This static dissipative vest features flame-resistant modacrylic binding, a non-conductive zipper front closure, and 2" silver heat transferred striping. The open sides feature adjustable snap closures for breathability and a comfortable fit. Clothing has an arc rating of 5.1 cal/cm² which meets NFPA 70E Hazard Risk Category 1. Meets ASTM F1506 and ANSI/ISEA 107-2010 Class 2 standards.

**Beacon Pro: 1.0W LED Flare**

This FlareAlert beacon is especially useful when workers are unable to use flames or other potentially hazardous light sources. This red LED flare is weather resistant and has the ability to withstand the weight of a 20,000 lb. vehicle. A built-in magnetic base sticks to vehicles or metal objects for increased visibility. The 4 rubber feet on its base prevent scratching and slipping. Comes with two lighting modes, Flash and Steady. Flash mode runs 60 hours, and Steady mode runs 20 hours. Batteries are easy to change due to its quick release feature. Requires 4 AA alkaline batteries (81937, not included).

**Chaselight**

The superbright Chaselight Beacon is great for safely marking emergency scenes, indicating obstacles, or advising caution on roadways at night. Most commonly used by municipalities. Similar to the Beacon Pro LEDs, these are often used for warehouse and industrial safety purposes (traffic safety, forklift safety, caution zones in warehouses, and spill marking). Comes with four lighting modes: Slow Chase, Normal Chase, Flash-Flash-Chase, and All Flash. Slow Chase runs 72 hours, Normal Chase runs 39 hours, Flash-Flash-Chase runs 18 hours, and All Flash runs 23 hours. Batteries are easy to change due to the quick release feature. 10 LED lights flash sequentially to indicate direction. Crush resistant and waterproof. Magnetic base. 30,000 LED life. 3 year warranty.

29604 Red

**Safety Barrier Fencing**

Plastic fencing sets up in minutes to provide a physical barrier and visual warning around hazardous areas. Reusable fencing comes in lightweight material.

83336 4' X 100' Roll
Plus Barricade Cart Package

The Banner Stakes PLUS Barrier packages are great for quick closures on doors, elevators, bathrooms, shut down equipment, etc. Carts are industrial strength with foot-lock brakes; include 5 heads, stanchions, and bases. Bases can be filled with water or sand, and stanchions have removable spikes that can be secured with the twist lock system. Velcro tie downs are included to keep bases firmly in place to prevent them from falling while being moved. Features a foam handle for comfort, is suitable for indoor/outdoor use, and is rustproof. Banner packages include any of the OSHA compliant colors: Yellow, Red, or Orange.

27487  Yellow, Authorized Personnel Only Banner
27493  Red, Restricted Area Banner
27502  Orange, Danger Forklift Traffic Banner

Magnetic Wall Mount Retractable Belt Barrier, 7 feet

Retractable belt barrier technology used for quick closure of docking doors, elevators, escalators, bathrooms, wide aisles, corridors, lockout/tagout of down equipment, electrical rooms creating an Arc Flash Boundary, and many other uses. Designed to be surface mounted for use when floor space is limited - attaches to magnetic surfaces and non-magnetic surfaces including but not limited to metal, stainless steel, glass, wood, and plastic. Secures to more surfaces than any other similar product in the market with powerful magnet. Portable; easily fits in a tool bag. Can be used indoors and outdoors. No extra accessories required. Includes magnets on both ends and 2 suction cups.

27889  Yellow, Caution - Do Not Enter
27897  Red, Danger High Voltage Keep Out
27892  Yellow, Out of Service
27893  Yellow, Closed for Maintenance

Plus Retractable Belt Barrier, 15 feet

Retractable belt barrier technology used for quick closure of docking doors, elevators, escalators, bathrooms, wide aisles, corridors, lockout/tagout of down equipment, electrical rooms creating an Arc Flash Boundary, and many other uses. Heads secure onto PLUS stanchion with push pin lock system for added stability and security. Banner Head includes 3 receiver slots that allow for gridding and delineation of work area in any configuration. Can be used indoors and outdoors.

27947  Yellow, Caution
27971  Red, Danger Keep Out
27983  Orange, Keep Area Clear
