

January 5, 1998

To whom it may concern:

Water-Jel Technologies is the manufacturer of the Hydrocortisone Cream 1% that you have requested a Material Safety Data Sheet. This product, a topical cream for first aid, is an over-the-counter (OTC) drug regulated by the US Food & Drug Administration. Products of this nature are exempt from MSDS requirements.

The active ingredient of the product is listed on the package, along with all of the appropriate directions, cautions and warnings.

You may wish to keep this document where you would keep an MSDS so that if the question arises again, this letter will be at hand.

If you have additional questions, please contact Water-Jel Technologies in New Jersey at 1-800-275-3433.
