

TOW GRIP SC

TOW GRIP SERIES

MODEL NO. 3094

FEATURES KEYS & BENEFITS

Flexible TPR: Adds breathability to TPR and resistance against blows to knuckles, fingernails, fingers, thumb and back of hand, while providing time to pull hand out of glove if caught in machinery.

Skid-X™: Adds oil, water, and petrochemical resistance, as well as heightened grip control in wet or oily environments.

Triple-Layer One-Piece Palm: Ensures durability and longevity along with oil and water resistance to glove through single-piece palm design.

Kevlar® Double Stitching: Adds durability and longevity in high-wear areas.

Reinforced Saddle: Adds longevity in high-wear area.

Adjustable Short Cuff: Ensures snug fit while in use.

Grip is important when working with wire rope, cables and chains on oil and gas sites, which is why the Tow Grip SC has strategically placed SkidX Grip™ palm patches.

The Tow Grip SC features an oil resistant palm with Skid-X Grip™ patches, for added grip control along the rope channel of the palm, that is double stitched on with Kevlar® thread. Flexible Thermoplastic Rubber (TPR) impact shields on the back of the glove add impact protection that bends with the fingers, and offers continuous protection from finger tips to wrist. Adjustable short cuff ensures a snug fit while in use.

- OIL & GAS REFINING • EXTRACTION • FRACKING • MINING
- BARREL & DRUM HANDLER • BAT CHAIN PULLER • SEARCH & RESCUE
- HEAVY CONSTRUCTION • DEMOLITION • TOOL PUSHER • IRON WORKER
