RE: Chemical Suit Disposal Notice: KIT601 PIG® Hydrofluoric Acid Neutralizing Spill Kit

Dear Jeff,

Thank you for your purchase of New Pig's KIT601—PIG® Hydrofluoric Acid Neutralizing Spill Kit in Bucket on 05/14/2013 via orders 21128443-00. While conducting a review of this product, New Pig was made aware of a chemical compatibility discrepancy with the suit previously found in this spill kit.

We ask, out of an abundance of caution, that you dispose of the chemical protective suit found in your spill kit if you have not already done so. Please remember to always follow applicable OSHA regulations around the selection, inspection, use, decontamination and disposal of suits of this nature.

We apologize for any inconvenience that this may cause, Conney Safety Products. If you have not already used and disposed of the suit in this spill kit, and due to this request will be disposing of an unused suit, please reach out to our technical services team to receive a 10% credit on the KIT601 on this order.

Do not hesitate to contact our technical services team at 1-800-HOT-HOGS if you should have any questions or need assistance obtaining a credit for the disposal of an unused suit.

Sincerely,

A handwritten signature in black ink that reads "Jennifer Weyant".
