

Stop Use

IMMEDIATE ACTION REQUIRED

3M™ Fall Protection Specific DBI-SALA® Delta™ & Exofit XP™ Arc Flash Harnesses

Dear 3M Fall Protection Distributor:

3M Fall Protection is issuing the attached "Stop Use Notice" for the specific DBI-SALA® Delta™ & Exofit XP™ Arc Flash harnesses. Recent testing of specific DBI-SALA® Delta™ & Exofit XP™ Arc Flash harnesses have returned negative test results on some units. Two issues are discussed in the attached "Stop Use Notice".

First, recent testing of specific DBI-SALA® Delta™ & Exofit XP™ Arc Flash harnesses that utilize an integrated 18 in. Nylon D-Ring Extension yielded inconsistent performance results. As such, we are issuing a stop use notice applicable to Arc Flash harnesses which include an attached nylon d-ring extension.

Second, we have been unable to establish a clear link of test reports validating conformity to ASTM F887 for a group of low volume custom harnesses. Out of an abundance of caution, we are requesting that end users return these harnesses to us and we will provide a cash rebate for these harnesses. Due to the very low volumes associated with these SKUs, we have chosen not to invest in the testing required to re-validate conformity to the ASTM F887 arc flash standard. We therefore have decided to discontinue offering these products to the market.

We are not aware of any accidents or injuries related to either of the conditions mentioned above. We have not received any customer complaints regarding this but have identified it through an internal review.

Please forward this Stop Use Notice to any of your customers who have purchased this product and we ask that you provide any assistance requested by your customers.

If you have any questions or concerns, please contact your 3M Sales Representative or the 3M Customer Service Team at 3musfpSERVICEACTION@mmm.com or 1-833-638-2697

Thank you in advance for your support and cooperation in reaching your customers with this information.
